Why **golmar** ?

Enhanced Security and Safety

With a video intercom system, you never need to put yourself or your family at risk again. You can now screen visitors from the safety of your home, opening the door for trusted guests or keeping out unwanted or suspicious strangers.

24/7 Access Control

With multiple monitors installed around your home, you can answer your front door from any room. More sophisticated systems also allow you to view and respond to live images on mobile, no matter where you are located.

Save On Home Insurance Premiums

Investing in the right systems for your home not only protects your loved ones and your possessions, it can also save you money, reducing your claim risk and enabling you to take advantage of insurance premium discounts.

Increase the value of your property

When it comes to sale time, a home with a comprehensive alarm system supplemented by a video intercom system enhances the appeal of your home and could be the difference between a successful and unsuccessful sale.

GL-SOUL 7W KIT

A smart 2-wire digital video intercom which provides a high quality system with great features, easy wiring and an intuitive user interface. A kit specifically developed for small to medium size residential homes with scalability of up to 2 door stations and 4 monitors.

App

GL-SOUL/1 Door Station

SOUL/1 door station is equipped with a 120º camera and a metallic pushbutton. SOUL/1 has a built-in light sensor that automatically illuminates at night, thanks to the incorporation of a photoelectric cell that also acts as the lighting LEDs for the camera. The door station is also equipped with LEDs indicating the function icons that displays the status of the system. Additionally you can connect to an analogue CCTV camera for added security. The door station is beautifully designed with an anti-vandal surface mounted panel in a zamak graphite finish.

SOUL

120º camera
