

Unpacking

Before using the device, check the device model and ensure that the shipped box includes the following items:

Main Unit Installation

- Stick the **wall-mounting template** on the wall where the device needs to be installed.
- According to the screw hole position on the template, use an electric drill to drill the hole with a diameter of 6mm and a depth of 25mm.

Insert three **plastic wall anchors** into the holes.

Note: Make sure the plastic wall anchors are not protruding from the wall surface.

Fix **metal box** onto the plastic wall anchors with three **ST4×20 crosshead screws**, ensuring that the box is firmly attached and flush against the wall.

Mount the A095 onto the rail inside the **metal box**, and complete the wiring according to the Device Wiring section.

Verify that the device is securely fixed and functioning properly. Then, lock the outer cover of the **metal box** to complete the installation.

Warranty

1. Akuvox warranty does not cover intentional mechanical damage or destruction caused by improper installation.
2. Do not attempt to modify, alternate, maintain, or repair device by yourself. Akuvox warranty does not apply to damages caused by anyone who is not representative of Akuvox or an Akuvox authorized service provider. Please contact Akuvox Technical Team if the device need to be repaired.
