Thermal-Sensing Security Camera

Motion & Heat-Activated 4K Bullet Camera with Audio

Put the heat on crime with this 4K Ultra HD security camera

- Enjoy day & night protection with the latest thermal-sensing security & have a bird's eye view of your premises in crystal clear 4K Ultra HD
- Seeing is believing from this 4K (or 8 Megapixels, which is 4x better than 1080p Full HD), perfect for seeing close up detail such as license plates, facial detail, clothing colors & more
- See what's happening during the night with infrared cut filter & powerful LEDs producing night vision up to 130ft / 40m & a wide 93° viewing angle
- The camera features a state-of-the-art True Detect™ PIR motion sensor designed for security applications & optimized to reliably detect people, but also cars, large pets & other large heat-generating objects
- The built-in microphone captures audio to add another layer of evidence to your video. Hear off-screen noises & identify voices by their gender, accent and age
- State-of-the-art software analytics trigger video recording & notification emails: Face Detection notifies you & records when the camera detects a human face; Line Crossing, Perimeter Intrusion, Static Object & Person Detection all help you know what's happening 24/7~
- With sleek bullet styling & sturdy aluminum construction, the camera suits indoor & outdoor applications with an IP66 rating for any weather conditions & cable threaded through the mounting stand for added protection
- This camera is the perfect addition if you already have a recording solution (NVR) & need extra surveillance. It can only be used in combination with Swann's Platinum Digital HD NVRs^

What can I do with this system?

Motion & Heat Trigger Recording & Alerts ^

- ✓ Virtually eliminate false triggers
- ✓ Accurate push notifications to your phone
- ✓ Significantly longer recording time

OLD

All movements, including objects that don't matter like leaves & trees, trigger motion detection & recording

NEW

Designed for your security, the PIR motion sensors distinguish heat & movement of larger objects including people & cars

Note: Indicative visual, video images show onscreen like normal
